EDUCATION

VIT Bhopal University

B.Tech in Computer Science Engineering (AI & ML) – CGPA: **8.5/10**

Bhopal, India

2024 – 2028

St. Xavier's Jr. Sr. School

Class 10 – **97.6%** | Christ Jyoti International School – Class 11 & 12

EXPERIENCE

Neoflo AI

Product Intern

Remote

June 2026 – Present

- Contributing to AI product development and feature iteration at an early-stage AI startup.
- Collaborating with cross-functional teams to research, test, and ship product features using AI/ML concepts.
- Conducting user research, data analysis, and competitor analysis to inform product decisions and improve user experience.
- Documenting product requirements, writing use cases, and tracking feature progress using agile workflows.
- Applying data-driven decision making and policy research thinking to evaluate product performance metrics.

PROJECTS

SkinAlgnosis | *Python, TensorFlow, Keras, React, Vercel* | [GitHub](#) | [Live Demo](#)

- Built a CNN-based skin disease detection platform classifying up to 8 skin conditions from uploaded images, deployed on Vercel — addressing real-world public health challenges.
- Led frontend development in React with real-time ML predictions; extending platform to include TB detection via X-ray classification for broader healthcare impact.
- Coordinated end-to-end project architecture and team workflow, from model training to production deployment.
- Designed an intuitive UI enabling users to upload images and receive instant AI-generated diagnostic insights, improving healthcare accessibility.

AI Medical Report Analyzer | *React, FastAPI, Groq (Llama 3.3 70B / Llama 4 Scout), PyPDF2* | [GitHub](#) | [Live Demo](#)

- Built a full-stack AI medical report analyzer processing both PDF text reports (blood tests, prescriptions) and medical images (X-Ray, MRI, CT scans) into plain-language explanations.
- Integrated Groq-hosted LLMs — Llama 3.3 70B for text report analysis and specialist recommendations, and Llama 4 Scout (vision) for medical image interpretation.
- Engineered a FastAPI backend with PyPDF2 text extraction and Pydantic validation; built a responsive React (Vite + Tailwind) frontend deployed across Vercel and Render.

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, HTML, CSS

AI / ML: TensorFlow, Keras, CNN, NLP, LLMs (Llama 3.3 / Llama 4 Scout), Groq API, Prompt Engineering

Data & Analytics: Data Analysis, Data Visualization, MySQL, Statistical Modelling, Research & Reporting

Frameworks & Tools: React, Vite, Tailwind CSS, FastAPI, Git, GitHub, Vercel, Render, Agile / Jira

Domains: AI in Healthcare, Digital Governance, Policy Research, Telecom & Digital Infrastructure

Core CS: Data Structures & Algorithms (Java), OOP, REST APIs, Computer Networks basics

Languages Known: English, Hindi

LEADERSHIP & VOLUNTEERING

Vice President – Linpack Club

VIT Bhopal

2024 – Present

- Lead a **200+ member** technical club; organize workshops, hackathons, and mentoring initiatives for students.
- Spearhead inter-college technical events and manage a core team of 15+ executives to ensure smooth execution.

NSS Volunteer | Youth Parliament POC | Blood Donation Camp Organizer

VIT Bhopal

2025 – Present

- Served as the primary point of contact for the Youth Parliament event and coordinated the university Blood Donation Camp.

CERTIFICATIONS & ACHIEVEMENTS

Certifications

Introduction to Generative AI – Google Cloud (Jun 2026) | Introduction to Large Language Models – Google Cloud (Jun 2026) |

Introduction to Responsible AI – Google Cloud (Jun 2026)

Project Manager Job Simulation – Siemens (Forage) | Python Programming Essentials | AI & ML Fundamentals

Achievements

Scored 97.6% in Class 10 boards | Elected VP of 200+ member Linpack Club | Deployed live AI healthcare web app (SkinAlgnosis) |

Solved **100+ problems** on LeetCode
